Detail Introduction :

Direct Thermal Lables

Direct thermal paper has the special heat sensitive powder, thus when do printing it does not need the thermal transfer ribbon. So it can avoid the waste of ribbon and save a lot of cost.

Crystal can provide several different types of direct thermal paper stickers. All have the good features for waterproof, resistance to oil and chemical.

1. Normal direct themal paper sticker
2. Detachable two layer thermal paper sticker
3. Syethnic direct themral paper sticker
4. PP direct thermal paper sticker
