

Oil resistant Glossy Silver PET Die Cut Labels Anti-fake Adhesive High Transparency

Specifications :

Place of Origin	Shanghai, China
Payment Terms	Credit guarantee T/T Western Union Paypal Wire Transfer LC

Detail Introduction :

Silver PET

The material has many advantages:

1. Have good mechanical properties, impact strength is 3~5 times than other films and the folding resistance is good.
2. Oil resistant, fat resistant, dilute acid, dilute alkali, and most solvent
3. High transparency, can block UV, good gloss.

Product No.	73303	77923	78387
Facestock	Brushed stainless steel surface	Bright high gloss metallic film	Matte finished metallic film
Thickness	0.0508 mm	0.0508 mm	0.0508 mm
Adhesive	Permanent acrylic based adhesive	Permanent solvent acrylic pressure sensitive adhesive	Permanent emulsion acrylic adhesive
Liner	White paper stock 0.08128mm	White paper stock 0.08128 mm	White paper stock 0.08128mm
Color	Brushed stainless metallic color	Bright silver color	Matte silver color
Service Temperature	-40?-149?	-40?-150?	-40?-150?
Application Temperature	-4°C	10°C	10°C
Printing	Full Color	Full Color	Full Color

Features	The technical data presented is from tests we believe to be reliable but should be considered representative or typical only and should not be used for specifications purposes.	The top coat is designed for printing by flexography with most solvent and some water based inks.	With most press inks, overlamination is required to meet the abrasion requirement for c-UL (CSA) recognition. At the 150°C recognition temperature, overlaminations darken enough to hinder the readability of most yellow colored inks.
