Printing	Full Color	Full Color
Features	It exhibits a balance of high cohesive strength and adhesion to low surface-energy substrates for lasting performance on squeezable containers. Specifically designed to exhibit excellent wetout characteristics and short-term removability.	The surface has been modified for improved ink adhesion. This product has excellent moisture resistance and good diecutting and dispensing characteristics. Printable by many web screen, UV letterpress, flexographic solvent and water-based inks. Not recommended for thermal transfer printing. Use caution when applying inks out to the edge of the label, particularly UV screen inks and UV cured varnishes.
