Detail Introduction :

Destructible sticker

Destructible sticker is a lable that if you tear it, the lable will be broken very easily, and it will not be used again. This lable always be used to adhesive on the seal.

It is designed specifically for applications requiring tamper-resistant features. Destructible films offer exceptional value for applications requiring destructibility, such as safety, warning, or registration decals.

Crystal Code can supply different types of the materials with clear and white color. Also we have economic solution for the destructible sticker which use normal paper.
